

TWENTY FIFTH ANNUAL SCIENTIFIC MEETING OF KAOMI KAOMI-OSTEOLOGY FOUNDATION JOINT MEETING

Date : March 10-11, 2018 (9AM -5PM)
Venue : THE K-HOTEL SEOUL

Hwan-Ho Yeo
President, KAOMI

The Korean Academy of Oral & Maxillofacial Implantology (KAOMI) was established in 1994 to promote innovative research and education of implant treatment in Republic of Korea. Celebrating its 25th anniversary in 2018, the KAOMI with almost nearly 6000 active members, is the largest professional association for dental implantology in Korea.

Mariano Sanz
President, Osteology Foundation

The Osteology Foundation was established in 2003 by Dr. Peter Geitlich. The Osteology Foundation promotes research, education and collaboration between universities and industry in the field of oral and maxillofacial tissue regeneration. The objective is to make new techniques and products available to practitioners quicker and with greater goal orientation.

International Academic Meeting
of Osseointegration

Jeonghye Kim
Chair of the Organizing Committee IAO18

Dear respected colleagues

It is a great honour and privilege to welcome you to the 25th annual scientific meeting of KAOMI in Seoul. The programme for the meeting reflects the progress we have made over the last 25 years, while at the same time focusing on current and emerging techniques. I hope that this meeting will serve as an opportunity to connect our past resources and cutting edge technique. This year is particularly special, because we are hosting "Osteology Regeneration Forum" together with the Osteology foundation to share our innovative insights on two major issues, peri-implantitis and extraction socket management. Also, we have prepared a Hands-on workshop on applicable clinical skills with guidance from Professor Mariano Sanz and Professor Ronald Jung. This scientific meeting is also an opportunity to share your knowledge and vision with colleagues and to socialize. We recommend that you take time to explore this dynamic country, places as DMZ or Jeju volcanic island and to experience the culture such as K-pop as well as Korean cuisine. We are sure that you will return home with memories to treasure. We look forward to meeting you in Seoul!

March 10-11, 2018 (9 AM - 5 PM)

Scientific Program

Lecture topics will cover the anterior esthetics, sinus complication, GBR, implant occlusion and more.

	Mariano Sanz, Spain Current approaches to the treatment of peri-implantitis		Byungdo Ham, Republic of Korea Unpredictable Implant Complications from ESM (Extraction Socket Management)
	Sašo Ivanovski, Australia Immediate versus early implant placement. Evidence-based decision making		Jung-chul Park, Republic of Korea Open healing and suture technique for extraction socket management
	Ronald E. Jung, Switzerland Extraction socket management. When and how		Youngkyung Ko, Republic of Korea Surface changes from decontamination methods
	Kitae Koo, Republic of Korea New classification of peri-implant disease		Jungseok Lee, Republic of Korea Autopsy report on regenerative treatment for peri-implantitis

More speakers will be announced later

HANDS-ON WORKSHOP

March 10-11, 2018 (Saturday-Sunday)

TIME	SPEAKERS	TITLE
13:20-17:00 (Sat./Mar.10)	Ronald E. Jung, Switzerland	Extraction Socket Management
9:00-12:30 (Sun./Mar.11)	Mariano Sanz, Spain	Soft Tissue Management

REGISTRATION

contactus@kaomi.or.kr

Registration fee (\$250) until December 31, 2017
